

Remarks/Arguments

Claims 9-12 are cancelled.

New Claims 15 to 22 are added to the specification. These claims serve as analogs to allowable Claims 1-8, respectively. Claims 15 to 22 claim the generation of the signals comprising media objects, complementing the rendering steps claimed in Claims 1-8. Support for the new claims is found in allowable Claims 1-8, in the specification on page 4, lines 4-9, and in other places.

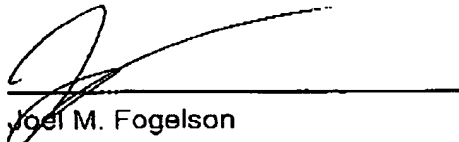

The abstract is amended as to eliminate the phrase "is disclosed". Other language of the abstract is amended for clarity purposes.

No new matter is added to the specification in view of these amendments.

Having fully addressed the Examiner's rejections it is believed that, in view of the preceding amendments and remarks, this application stands in condition for allowance. Accordingly then, reconsideration and allowance are respectfully solicited. If, however, the Examiner is of the opinion that such action cannot be taken, the Examiner is invited to contact the Applicants' attorney at (609) 734-6809, so that a mutually convenient date and time for a telephonic interview may be scheduled.

It is believed that no fees are owed in connection with this paper. If any fees are owed, please charge Deposit Account 07-0832.

Respectfully submitted,
